

SHORT

TRAVELLERS COMPLEX

Shaper: Bufo

Your weapon of choice for most conditions. A shape with many compromises, but still allowing speed and radical manouvers.

A board that fits all conditions. Great board for travelling: Covers most conditions from beach breaks to reef from 2 - 9 ft surf.

Easy to turn but still controllable and runs smoothly. Allround roundtail for fast and radical surfing in various conditions.

North sea, heavy La Graviere (Hossegor, France), Mundaka or canaries: this board is your weapon of choice.

Rolled forward v- to single-concave-bottom and more rocker in the railline causes all-round abilities and running smoothness.

Super-Grommet Roy van Eijk's favourite board that made various 1st places possible.
